SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

AVISTA pace GER FS SAE 10W-40

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/preparation

Engine oil

Uses advised against

1.3. Details of the supplier of the safety data sheet

Address/Manufacturer

AVISTA OIL Deutschland GmbH Bahnhofstr. 82 31311 Uetze Telephone no. + 495177 / 85 - 0 Information provided productmanagement (+49 5177 / 85 - 178 or 171) by / telephone E-mail address of msds@avista-oil.de person responsible for this SDS

1.4. Emergency telephone number

CHEMTREC: +1-703-527-3887 (worldwide, 24h a day / 7 days a week) +43 1 3649237 (Austria) +32 2 808 32 37 (Belgium) +359 32 570 104 (Bulgaria) +420 228 880 039 (Czech Republic) +45 69 91 85 73 (Denmark) +49 69 643508409 (Germany) +972 3-763-0639 (Israel) +371 66 165 504 (Latvia) +370 5 214 0238 (Lithuania) +60 3-9212 5794 (Malaysia) +389 2 551 7456 (Macedonia) +31 85 888 0596 (The Netherlands) +48 22 398 80 29 (Poland) +40 376 300 026 (Romania) +8 (800) 100-63-46 (Russia) +46 8 525 034 03 (Sweden) +386 1 888 80 16 (Slovenia) +886 2 7741 4207 (Taiwan) +380 94 710 1374 (Ukraine)

+36 1 808 8425 (Hungary)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

This product is not classified hazardous in accordance with Regulation (EC) No 1272/2008.

2.2. Label elements

Safety data sheet in accorda	,				STA OIL AC

All concentrations are units of weight percent for liquids, and unit of volume percent for gaseous products. Other substances that are not classified to be hazardous, up to 100%. Complete text of hazard statements in chapter 16 Mixtures are not subject to registration. The registration numbers of the ingredients in this mixture (if present) have been listed in item 3.

SECTION 4: First aid measures

4.1. Description of first aid measures

General information

In case of persistent symptoms consult doctor. Remove soiled or soaked clothing immediately, do not allow to dry. Never give anything by mouth to an unconscious person.

After inhalation

Remove the casualty into fresh air and keep him calm. In the event of symptoms take medical treatment.

After skin contact

After contact with skin, wash immediately with plenty of water and soap. Consult a doctor if skin irritation persists. Remove contaminated clothing.

After eye contact

Separate eyelids, wash the eyes thoroughly with water (15 min.). Take medical treatment.

After ingestion

Do not induce vomiting - aspiration hazard. Summon a doctor immediately.

Adhere to personal protective measures when giving first aid

First aider: Pay attention to self-protection!

- **4.2. Most important symptoms and effects, both acute and delayed** Until now no symptoms known so far.
- 4.3. Indication of any immediate medical attention and special treatment needed Hints for the physician / treatment

Treat symptomatically

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media

Foam, Dry powder, Carbon dioxide, Water spray jet

Non suitable extinguishing media

Full water jet

5.2. Special hazards arising from the substance or mixture

In the event of fire the following can be released: Pyrolysis products; Hydrocarbons; Carbon dioxide (CO2); Carbon monoxide (CO); Hydrogen sulfide (H2S); Nitrogen oxides (NOx); Phosphorus oxides; Smoke.

5.3. Advice for firefighters

Special protective equipment for fire-fighting

In case of combustion use a suitable breathing apparatus. Wear full protective suit. Do not allow run-off from fire fighting to enter drains or water courses.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation. Exclude sources of ignition and ventilate the area. Avoid contact with skin,

SECTION 7: Handling a	nd storage	
7.1. Precautions for safe h	andling	
care. Avoid skin and eye	st. Hot product develops flammable vapours. H contact.	landle and open container with
Advice on protection ag Keep away from sources	ainst fire and explosion of heat and ignition. Do not smoke. Take actic	on to prevent static discharges.
7.2. Conditions for safe st	orage, including any incompatibilitie	es
Recommended storage		
Value	< 50 °C	
Requirements for storag Keep only in original pac		
Hints on storage assem	bly	
Keep away from flammal		
Storage class according		
Storage class according TRGS 510	to 10 Flammable liquids	
Further information on s Keep container tightly clo	storage conditions osed and dry. Keep in a cool place	
7.3. Specific end use(s) see product information		
SECTION 8: Exposure	controls/personal protection	
8.1. Control parameters		
Other information		
There are not known any	further control parameters.	
8.2. Exposure controls		
Exposure controls		
Technical measures for p	preventing exposition. Organisational measures	s for preventing exposition.

Technical measures for preventing exposition. Organisational measures for preventing exposition. Provide adequate ventilation. The type of personal protective equipment must be selected depending on the concentration and quantity of the hazardous substance at the workplace.

General protective and hygiene measures

Observe the usual precautions for handling chemicals. Store work clothing separately. Wash hands before breaks and after work. Cloths contaminated with product should not be kept in trouser pockets. Do not eat, drink or smoke during work time.

Respiratory protection

Not necessary, but do not inhale vapours. In situations where misting or flying may occur use appropriate certified respirators. Short term: filter apparatus, Filter A/P2

Hand protection

For this purpose, protective gloves are suitable, for instance, made by the company KCL GmbH, D-36124 Eichenzell, phone +49 (0)6659 87300, e-mail: vertrieb@kcl.de with the following specification (tested as per EN374):

Camatril (Item No: 731; Material: Nitrile; Minimum layer thickness: 0.33 mm; Burst time: 480 min) Dermatril (Item No: 740; Material: Nitrile; Minimum layer thickness: 0.11 mm; Burst time: 30 min) The protective gloves to be used must comply with the specifications of the EU directive 89/686/EEC and the standard EN374 derived from it. The above mentioned burst times are based on laboratory measurements of KCL made as per EN 374 and a re applicable only for this KCL product. Preventive skin protection by protective skin ointment.

Eye protection

Tightly fitting safety glasses

Body protection

Clothing as usual in the chemical industry. Protective gloves resistant to chemicals

Other information

There are no data available on the mixture itself. It was classified in accordance with the calculation method of the directive (EC) No. 1272/2008 [CLP].

SECTION 12: Ecological information

12.1. Toxicity

General information

There are no data available on the mixture itself. The mixture has been assessed following the summation method of the CLP Regulation (EC) No 1272/2008 and is not classified as dangerous for the environment.

12.2. Persistence and degradability

General information

There are no data available on the mixture itself.

Biodegradability

Remarks

The product is not readily biodegradable according to OECD criteria but is inherently biodegradable.

12.3. Bioaccumulative potential

General information

There are no data available on the mixture itself.

Partition coefficient: n-octanol/water

Remarks

not determined

12.4. Mobility in soil

General information

There are no data available on the mixture itself.

12.5. Results of PBT and vPvB assessment

Evaluation of persistance and bioaccumulation potential

The product contains no PBT or vPvB substances.

12.6. Other adverse effects

Endocrine disrupting properties with respect to the envrionment

The product does not contain a substance that has endocrine disrupting properties with respect to non-target organisms.

12.7. Other adverse effects

General information / ecology

Do not discharge product unmonitored into the environment.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Disposal recommendations for the product

EWC waste code 13 02 05*

mineral-based non-chlorinated engine, gear and lubricating oils

Dispose of as hazardous waste.

The waste code numbers/waste designations are to be assigned in accordance with EWC with reference to industrial fields and processes.

Dispose of waste according to applicable legislation.

Disposal recommendations for packaging

Packaging that cannot be cleaned should be disposed off as product waste. Uncontaminated packaging may be taken for recycling. Completely emptied packagings can be given for recycling.

SECTION 14: Transport information

Land transport ADR/RID

The product does not constitute a hazardous substance in land transport.
